English

PROFILE

- As a Front-End developer Fresher with 10 months of practical experience, I specialize in creating responsive and visually appealing websites using HTML, CSS, Bootstrap, JavaScript, and React JS. I am a proficient React.js Developer with a robust educational background in front-end development, holding a front-end development certification. Fluent in both Tamil and English, I bring a versatile skill set to the table.

PROJECT'S

Form Validation Using React Js

[View Project](#)

- I Developed Form For Validation Using HTML , CSS , JavaScript, a React-based application featuring a dynamic and responsive form validation system. Leveraging the power of React hooks, specifically useState and useEffect, our project ensures a seamless user experience on various devices.

Crud Operation Using Monk API

[View Project](#)

- I Created a React-based desktop view CRUD app using HTML , CSS JavaScript and hooks and Axios Technologies with Monk API integration. Seamlessly combining React flexibility with Axios efficiency, our project simplifies CRUD operations, ensuring a user-friendly interface for data management and Desktop View Only.

E-Commerce Website With Redux Toolkit

[View Project](#)

- I Developed E-commerce site Using HTML , CSS , JavaScript crafted with React and powered by the Redux library. This project seamlessly blends the flexibility of React for building dynamic user interfaces with Redux for efficient state management.

CERTIFICATION

- Front-End Developer Certification

SKILLS

- Responsive Web Design.
- Cross-Browser Compatibility.
- Strong Problem-Solving Skills.
- Time Management.
- Team Collaboration.
- Excellent Communication Skills.

DECLARATION

- I here by declare that the details above are correct and true to the best of my knowledge
